

FORTUNE Ezi BALANCE™

GAMING MANAGEMENT SYSTEM

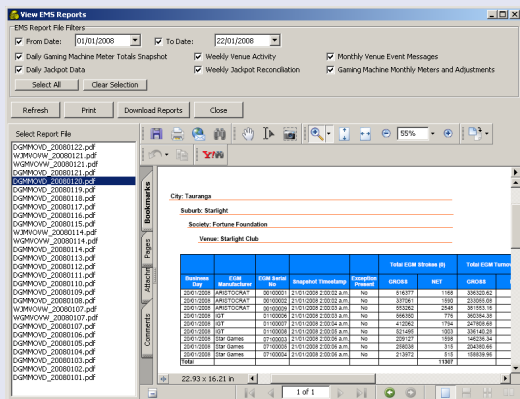

EMS COMPLIANCE MADE EZI

Does your venue look at the EMS Reports on a daily basis?

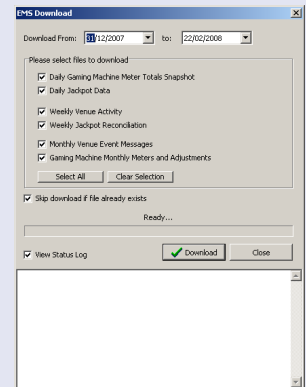

EziBalance makes compliancy easy.

Download, View and Print the EMS Reports with the click of a few buttons.

As part of the daily procedures EziBalance now has a new feature that enables the venue operator to access the EMS web site and download the EMS Reports without the hassle of opening a browser.

EziBalance will automatically navigate the EMS website and download the selected reports.

EziBalance will then display a list of venue's reports in an easy to use and intuitive interface.

EziBalance allows your venue to print off all of the required EMS reports in a quick and easy fashion.

Another great feature of EziBalance is the ability for the venue to compare the EMS reports data with EziBalance data this will highlight any variances that need investigation. This feature enables a user to get to the roots of the variance down to a machine on a day basis.

In addition to this EMS data is stored on the venue computer for future inspection.
